Personally I think it's a bad idea to increase the amount you are trying to increase the sewer and water due to the fact that it's already high and my wife is the only one that is employed and does not work a full time job.

Also it is a bad idea to increase because the economy is getting worst a lot of people are losing their jobs and do not have the way to pay the amount you want to increase so take it into consideration, think about what you want to do before doing it. It is very hard.

Thank you,
Luis M. Felix
